Certified Ethical Hacker (CEH)

Certified Ethical Hacker (CEH) is a qualification obtained in assessing the security of computer systems, using penetration testing techniques. The code for the CEH exam is 312-50; The certification is in Version 9 as of late 2015.

Certified Information Systems Security Professional (CISSP)

CISSP certification is the ideal credential for those with proven deep technical and managerial competence, skills, experience, and credibility to design, engineer, implement, and manage their overall information security program to protect organizations from growing sophisticated attacks.

Who should attend?

Certified Information Systems Auditor (CISA)

Enhance your career by earning CISA world-renowned as the standard of achievement for those who audit, control, monitor and assess information technology and business systems.

The CISA designation is a globally recognized certification for IS audit control, assurance and security professionals. Being CISA-certified showcases your audit experience, skills and knowledge, and demonstrates you are capable to assess vulnerabilities, report on compliance and institute controls within the enterprise.
